SINGER®

WHY SINGER® Garment Care

Since 1851, SINGER® has been the trusted leader in garment and fabric care. We have applied over 160 years of experience working with fabrics and conducting extensive consumer research to develop a full product line of consumer-inspired garment care products to meet sewer's exact requirements while also reaching the non-sewing consumer. SINGER® is also the garment care and sewing educational source to teach our consumers how to best care for their garments so that they can feel confident, look their best, and get expert results with any sewing project using SINGER® garment care products.

SINGER®

SteamLogic Plus

1775 Watts
